WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 1	Vol. XCII.	WEEK ENDED SATURDAY, 1st January, 1955	PRICE 2d. NET
-------	------------	--	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 256—134 boys and 122 girls, while the number of births to mothers resident in the County Borough was 185.

The number of deaths registered was 137—69 males and 68 females. The number of deaths of persons resident in the County Borough was 114.

There was one death from tuberculosis of the respiratory system.

There was one death from diphtheria and one from acute anterior poliomyelitis.

Fourteen deaths were due to malignant neoplasms.

There were 10 deaths from pneumonia, and 7 from bronchitis.

There were 3 accidental deaths registered, one of which was due to carbon-monoxide poisoning.

Among the deaths of infants under one year, 2 were due to pneumonia, one to pyelonephritis, 1 to gastro-enteritis, 3 to congenital malformations, one to birth injury and 7 to prematurity.

Sixteen of the deaths recorded during the week for the County Borough were those of children under one year of age, 12 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 58.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 1st January, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 2	Vol. XCII.	WEEK ENDED SATURDAY, 8th January, 1955	PRICE 2d. NET
-------	------------	--	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 317—158 boys and 159 girls, while the number of births to mothers resident in the County Borough was 228.

The number of deaths registered was 146—72 males and 74 females. The number of deaths of persons resident in the County Borough was 124.

There were 3 deaths from tuberculosis of the respiratory system and one from tuberculous meningitis.

Seventeen deaths were due to malignant neoplasms.

There were 4 deaths from pneumonia and 7 from bronchitis.

There were 6 accidental deaths registered, one of which was due to a transport accident and one to scalds.

Among the deaths of infants under one year, 3 were due to broncho-pneumonia, 2 to gastro-enteritis, one to congenital malformation, one to prematurity, one to tuberculous meningitis and one to suffocation due to regurgitated vomitus.

Nine of the deaths recorded during the week for the County Borough were those of children under one year of age, 3 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 66.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 8th January, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 332—160 boys and 172 girls, while the number of births to mothers resident in the County Borough was 255.

The number of deaths registered was 164—75 males and 89 females. The number of deaths of persons resident in the County Borough was 130.

There were 3 deaths from tuberculosis of the respiratory system.

Twenty-five deaths were due to malignant neoplasms.

There were 4 deaths from pneumonia and 5 from bronchitis.

There were 2 accidental deaths registered.

There was one suicide.

Among the deaths of infants under one year, 2 were due to pneumonia, 3 to congenital malformation, 2 to prematurity, 2 to birth injuries and one to atelectasis.

Ten of the deaths recorded during the week for the County Borough were those of children under one year of age, 5 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 77.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 15th January, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 7	Vol. XCII.	WEEK ENDED SATURDAY, 12th February, 1955	PRICE 2d. NET
-------	------------	--	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 291—136 boys and 155 girls, while the number of births to mothers resident in the County Borough was 214.

The number of deaths registered was 142—74 males and 68 females. The number of deaths of persons resident in the County Borough was 120.

There were 2 deaths from tuberculosis of the respiratory system.

Thirteen deaths were due to malignant neoplasms.

There were 2 deaths from pneumonia and 11 from bronchitis.

There were 3 accidental deaths registered, one of which was due to drowning and one to poisoning.

There was one suicide.

Among the deaths of infants under one year, 4 were due to congenital malformation, 2 to atelectasis, 2 to pneumonia, one to haemolytic disease and one to asphyxia.

Ten of the deaths recorded during the week for the County Borough were those of children under one year of age, 7 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 69.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 12th February, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 297—168 boys and 129 girls, while the number of births to mothers resident in the County Borough was 227.

The number of deaths registered was 144—63 males and 81 females. The number of deaths of persons resident in the County Borough was 118.

There was one death from tuberculosis of the respiratory system.

Sixteen deaths were due to malignant neoplasms.

There were 7 deaths from pneumonia and 6 from bronchitis.

There were 3 deaths from influenza.

There were 7 accidental deaths registered, 2 of which were due to transport accidents, one to scalds and one was caused by factory machinery.

Among the deaths of infants under one year, 4 were due to pneumonia, one to gastro-enteritis, one to prematurity, one to birth injury, one to pyelonephritis and one to staphylococcal infection.

Nine of the deaths recorded during the week for the County Borough were those of children under one year of age, 4 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 70.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 9	Vol. XCII.	WEEK ENDED SATURDAY, 26th February, 1955	PRICE 2d. NET
-------	------------	--	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 311—159 boys and 152 girls, while the number of births to mothers resident in the County Borough was 215.

The number of deaths registered was 164—84 males and 80 females. The number of deaths of persons resident in the County Borough was 144.

There was one death from tuberculosis of the respiratory system.

Sixteen deaths were due to malignant neoplasms.

There were 11 deaths from pneumonia and 13 from bronchitis.

There were 4 deaths from influenza.

There were 3 accidental deaths registered, one of which was due to a transport accident, and one to asphyxia due to smoke.

Among the deaths of infants under one year, 7 were due to pneumonia, 5 to prematurity, 4 to congenital malformation, one to pneumococcal meningitis, one to asphyxia, one to injury at birth and one to enteritis.

Twenty of the deaths recorded during the week for the County Borough were those of children under one year of age, 15 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 84.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 26th February, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 10	Vol. XCII.	WEEK ENDED SATURDAY, 5th March, 1955	PRICE 2d. NET
--------	------------	--------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLÍN COUNTY BOROUGH

The number of births registered during the week was 255—131 boys and 124 girls, while the number of births to mothers resident in the County Borough was 172.

The number of deaths registered was 223—94 males and 129 females. The number of deaths of persons resident in the County Borough was 186.

There were 4 deaths from tuberculosis of the respiratory system.

Twenty-two deaths were due to malignant neoplasms.

There were 7 deaths from pneumonia and 21 from bronchitis.

There were 4 deaths from influenza.

There were 4 accidental deaths registered, 2 of which were due to transport accidents.

Among the deaths of infants under one year, 2 were due to birth injury, one to sepsis of newborn and one to congenital malformation.

Four of the deaths recorded during the week for the County Borough were those of children under one year of age, 2 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 128.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 5th March, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 14	Vol. XCII.	WEEK ENDED SATURDAY, 2nd April, 1955	PRICE 2d. NET
--------	------------	--------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 380—189 boys and 191 girls, while the number of births to mothers resident in the County Borough was 278.

The number of deaths registered was 206—109 males and 97 females. The number of deaths of persons resident in the County Borough was 175.

There were 7 deaths from tuberculosis of the respiratory system.

Thirteen deaths were due to malignant neoplasms.

There were 17 deaths from pneumonia and 14 from bronchitis.

There were 7 deaths from influenza.

There were 4 accidental deaths registered, one of which was due to a transport accident.

Among the deaths of infants under one year, one was due to pneumonia, one to birth injury, one to haemolytic disease, one to congenital malformation, one to gastro-enteritis and one to post-natal asphyxia.

Six of the deaths recorded during the week for the County Borough were those of children under one year of age, 4 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 114.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 2nd April, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS FOR THE PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 17 Vol. XCII. WEEK ENDED SATURDAY, 23rd April, 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 402—210 boys and 192 girls, while the number of births to mothers resident in the County Borough was 287.

The number of deaths registered was 124—51 males and 73 females. The number of deaths of persons resident in the County Borough was 115.

There were 3 deaths from tuberculosis of the respiratory system, one from tuberculous meningitis and one from tuberculosis of the knee joint.

Nineteen deaths were due to malignant neoplasms.

There were 2 deaths from pneumonia and 6 from bronchitis.

There were 2 accidental deaths registered both of which were due to transport accidents.

Among the deaths of infants under one year, 5 were due to prematurity, 3 to congenital malformation, one to atelectasis, one to pneumonia and one to injury at birth.

Twelve of the deaths recorded during the week for the County Borough were those of children under one year of age, 11 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 78.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 23rd April, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 18	Vol. XCII.	WEEK ENDED SATURDAY, 30th April, 1955	PRICE 2d. NET
--------	------------	---------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 438—222 boys and 216 girls, while the number of births to mothers resident in the County Borough was 314.

The number of deaths registered was 139—66 males and 73 females. The number of deaths of persons resident in the County Borough was 117.

There were 6 deaths from tuberculosis of the respiratory system and one from tuberculous meningitis.

There was one death from diphtheria.

Twenty-one deaths were due to malignant neoplasms.

There were 6 deaths from pneumonia and 3 from bronchitis.

There were 3 accidental deaths registered of which 2 were due to transport accidents and one to scalding.

Among the deaths of infants under one year, 2 were due to pneumonia, one to injury at birth and one to prematurity.

Four of the deaths recorded during the week for the County Borough were those of children under one year of age, 3 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 73.

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 19	Vol. XCII.	WEEK ENDED SATURDAY, 7th May, 1955	PRICE 2d. NET
--------	------------	------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 345—173 boys and 172 girls, while the number of births to mothers resident in the County Borough was 247.

The number of deaths registered was 119—59 males and 60 females. The number of deaths of persons resident in the County Borough was 97.

Sixteen deaths were due to malignant neoplasms.

There were 2 deaths from pneumonia and 5 from bronchitis.

There were 8 accidental deaths registered 3 of which were due to transport accidents, 2 to burns and 2 to carbon monoxide poisoning due to inhalation of smoke.

Among the deaths of infants under one year, 3 were due to injury at birth, 2 to prematurity, one to congenital malformation, one to meconium ileus, one to status thymolympaticus, and one to pneumonia.

Nine of the deaths recorded during the week for the County Borough were those of children under one year of age, 6 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 55.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Ohlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 20	Vol. XCII.	WEEK ENDED SATURDAY, 14th May, 1955	PRICE 2d. NET
--------	------------	-------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 383—218 boys and 165 girls, while the number of births to mothers resident in the County Borough was 286.

The number of deaths registered was 117—61 males and 56 females. The number of deaths of persons resident in the County Borough was 97.

There were 3 deaths from tuberculosis of the respiratory system.

Eighteen deaths were due to malignant neoplasms.

There were 5 deaths from pneumonia and 2 from bronchitis.

There was one death from influenza.

There were 2 accidental deaths registered one of which was due to drowning.

Among the deaths of infants under one year, 2 were due to pneumonia, 2 to congenital malformation, one to asphyxia, one to atelectasis, one to prematurity, one to neo-natal infection and one to mechanical suffocation.

Nine of the deaths recorded during the week for the County Borough were those of children under one year of age, 6 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 58.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 14th May, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 23	Vol. XCII.	WEEK ENDED SATURDAY, 4th June, 1955	PRICE 2d. NET
--------	------------	-------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 437—214 boys and 223 girls, while the number of births to mothers resident in the County Borough was 326.

The number of deaths registered was 99—44 males and 55 females. The number of deaths of persons resident in the County Borough was 85.

There were 5 deaths from tuberculosis of the respiratory system and one from tuberculosis of the knee joint.

Fifteen deaths were due to malignant neoplasms.

There were 5 deaths from bronchitis and one from pneumonia.

Among the deaths of infants under one year, one was due to pneumonia, one to congenital malformation, one to atelectasis and one to injury at birth.

Four of the deaths recorded during the week for the County Borough were those of children under one year of age, 2 of whom were under one month old. Deaths of persons aged 65 years and upwards numbered 59.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 4th June, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 26	Vol. XCII.	WEEK ENDED SATURDAY, 25th June, 1955	PRICE 2d. NET
--------	------------	--------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 432—214 boys and 218 girls, while the number of births to mothers resident in the County Borough was 329.

The number of deaths registered was 114—58 males and 56 females. The number of deaths of persons resident in the County Borough was 94.

There were 4 deaths from tuberculosis of the respiratory system, one from tuberculous meningitis and one from tuberculosis of the sacrum.

Sixteen deaths were due to malignant neoplasms.

There were 6 deaths from bronchitis and one from pneumonia.

There were three accidental deaths registered, two of which were due to drowning and one to a transport accident.

Two deaths of infants under one year were registered, both of which were due to atelactasis.

Fifty-four of the deaths recorded during the week for the County Borough were those of persons aged 65 years and upwards and two were of infants under one month.

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 29	Vol. XCII.	WEEK ENDED SATURDAY, 16th July, 1955	PRICE 2d. NET
--------	------------	--------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 279—156 boys and 123 girls, while the number of births to mothers resident in the County Borough was 210.

The number of deaths registered was 130—70 males and 60 females. The number of deaths of persons resident in the County Borough was 112.

There was one death from tuberculosis of the respiratory system.

Sixteen deaths were due to malignant neoplasms.

There were 3 deaths from pneumonia and 6 from bronchitis.

There were 4 accidental deaths registered, one of which was due to a transport accident and one to carbon monoxide poisoning.

Among the deaths of infants under one year, 5 were due to prematurity, one to birth injury, one to haemolytic disease of newborn, one to acute leukaemia and one to accidental suffocation.

Nine of the deaths recorded during the week for the County Borough were those of children under one year of age, 7 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 57.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 16th July, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 32	Vol. XCII.	WEEK ENDED SATURDAY, 6th August 1955	PRICE 2d. NET
--------	------------	--------------------------------------	---------------

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 332—167 boys and 165 girls, while the number of births to mothers resident in the County Borough was 250.

The number of deaths registered was 105—41 males and 64 females. The number of deaths of persons resident in the County Borough was 88.

Twenty-two deaths were due to malignant neoplasms.

There were 2 deaths from pneumonia and 3 from bronchitis.

There were 3 accidental deaths registered, one of which was due to a transport accident and one to drowning.

Among the deaths of infants under one year, 2 were due to prematurity, one to atelectasis, one to birth injury, one to whooping cough and one to congenital malformation.

Six of the deaths recorded during the week for the County Borough were those of children under one year of age, 3 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 45.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 6th August, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 36 Vol. XCII. WEEK ENDED SATURDAY, 3rd September 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 324—146 boys and 178 girls, while the number of births to mothers resident in the County Borough was 227.

The number of deaths registered was 80—42 males and 38 females. The number of deaths of persons resident in the County Borough was 70.

There was one death from diphtheria.

Seventeen deaths were due to malignant neoplasms.

There were 2 deaths from bronchitis.

There were 2 accidental deaths, one of which was due to a transport accident.

Among the deaths of infants under one year, 2 were due to gastro-enteritis, one to accidental strangulation and one to neo-natal infection.

Four of the deaths recorded during the week for the County Borough were those of children under one year of age, none of whom were under one month old. Deaths of persons aged 65 and upwards numbered 49.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 3rd September, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 37 Vol. XCII. WEEK ENDED SATURDAY, 10th September 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 310—145 boys and 165 girls, while the number of births to mothers resident in the County Borough was 227.

The number of deaths registered was 128—71 males and 57 females. The number of deaths of persons resident in the County Borough was 91.

Seventeen deaths were due to malignant neoplasms.

There were 2 deaths from bronchitis.

There were 4 accidental deaths, two of which were due to transport accidents.

Among the deaths of infants under one year, one was due to gastro-enteritis, one to empyema, 2 to acute broncho-pneumonia, one to atelectasis, one to cachexia, 6 to congenital malformation, 3 to birth injury, 3 to asphyxia neonatorum and 2 to prematurity.

Twenty of the deaths recorded during the week for the County Borough were those of children under one year of age, 18 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 41.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 10th September, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS FOR THE PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 38 Vol. XCII. WEEK ENDED SATURDAY, 17th September 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 309—152 boys and 157 girls, while the number of births to mothers resident in the County Borough was 238.

The number of deaths registered was 94—53 males and 41 females. The number of deaths of persons resident in the County Borough was 75.

Twenty deaths were due to malignant neoplasms.

There was one death from pneumonia.

There was one accidental death.

Among the deaths of infants under one year, two were due to prematurity, one to asphyxia neonatorum, two to gastro-enteritis and one to congenital malformation.

Six of the deaths recorded during the week for the County Borough were those of children under one year of age, 3 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 48.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 17th September, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS
FOR THE
PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 39 Vol. XCII. WEEK ENDED SATURDAY, 24th September 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 353—166 boys and 187 girls, while the number of births to mothers resident in the County Borough was 259.

The number of deaths registered was 116—64 males and 52 females. The number of deaths of persons resident in the County Borough was 95.

Eighteen deaths were due to malignant neoplasms.

There were 6 deaths from pneumonia.

There were 4 accidental deaths, one of which was due to a transport accident.

There were 4 deaths of children under 2 years from gastro-enteritis.

Among the deaths of infants under one year, two were due to gastro-enteritis, two to congenital malformation, one to pneumonia, one to birth injury and one to prematurity.

Seven of the deaths recorded during the week for the County Borough were those of children under one year of age, 2 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 53.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 24th September, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS FOR THE PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Ohlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 40 Vol. XCII.

WEEK ENDED SATURDAY, 1st October, 1955

PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 376—204 boys and 172 girls, while the number of births to mothers resident in the County Borough was 283.

The number of deaths registered was 121—55 males and 66 females. The number of deaths of persons resident in the County Borough was 94.

Fifteen deaths were due to malignant neoplasms.

There were 4 deaths from pneumonia.

There were 3 accidental deaths, one of which was due to a transport accident.

There were 3 deaths of children under 2 years from gastro-enteritis.

Among the deaths of infants under one year, four were due to prematurity, two to gastro-enteritis, two to broncho-pneumonia, two to congenital malformation, one to meningitis and one to infanticide.

Twelve of the deaths recorded during the week for the County Borough were those of children under one year of age, 7 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 43.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 1st October, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 41 Vol. XCII. WEEK ENDED SATURDAY, 8th October, 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 320—178 boys and 142 girls, while the number of births to mothers resident in the County Borough was 226.

The number of deaths registered was 103—45 males and 58 females. The number of deaths of persons resident in the County Borough was 88.

There was one death from diphtheria.

Sixteen deaths were due to malignant neoplasms.

There were 3 deaths from bronchitis.

There was one accidental death, due to a transport accident.

There were 2 deaths of children under 2 years from gastro-enteritis.

Among the deaths of infants under one year, one was due to prematurity, two to gastro-enteritis, two to congenital malformation, and one to atelectasis.

Six of the deaths recorded during the week for the County Borough were those of children under one year of age, 4 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 50.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 8th October, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Ohlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 44 Vol. XCII. WEEK ENDED SATURDAY, 29th October, 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 198—104 boys and 94 girls, while the number of births to mothers resident in the County Borough was 170.

The number of deaths registered was 86—49 males and 37 females. The number of deaths of persons resident in the County Borough was 68.

Eighteen deaths were due to malignant neoplasms.

There were 2 deaths from bronchitis.

There was one accidental death.

Among the deaths of infants under one year, one was due to broncho-pneumonia, 2 to birth injury, 2 to prematurity, and 2 to enteritis.

Seven of the deaths recorded during the week for the County Borough were those of children under one year of age, 6 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 42.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 29th October, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 46 Vol. XCII. WEEK ENDED SATURDAY, 12th November, 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 212—100 boys and 112 girls, while the number of births to mothers resident in the County Borough was 155.

The number of deaths registered was 117—56 males and 61 females. The number of deaths of persons resident in the County Borough was 98.

Fifteen deaths were due to malignant neoplasms.

There were 6 deaths from bronchitis.

There was one accidental death which was due to a transport accident.

There was one suicide.

Among the deaths of infants under one year, 2 were due to haemolytic disease, 3 to congenital malformations, 4 to prematurity, 3 to pneumonia, and one to congenital thyrotoxicosis.

Thirteen of the deaths recorded during the week for the County Borough were those of children under one year of age, 9 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 51.

TABLE I.—BIRTHS and DEATHS registered during the week ended Saturday, 12th November, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS FOR THE PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Ohlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 47 Vol. XCII. WEEK ENDED SATURDAY, 19th November, 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 367—176 boys and 191 girls, while the number of births to mothers resident in the County Borough was 256.

The number of deaths registered was 111—63 males and 48 females. The number of deaths of persons resident in the County Borough was 98.

There were 2 deaths from diphtheria and one from whooping cough.

There were 6 deaths from tuberculosis of the respiratory system.

Twenty-three deaths were due to malignant neoplasms.

There was one death from influenza, two from bronchitis, and 3 from pneumonia.

There were 6 accidental deaths registered, 2 of which were due to transport accidents, 2 to carbon monoxide poisoning, and one to burns.

Among the deaths of infants under one year, one was due to pneumonia, one to asphyxia, and 3 to congenital malformations.

Six of the deaths recorded during the week for the County Borough were those of children under one year of age, one of whom was under one month old. Deaths of persons aged 65 and upwards numbered 37.

Table 1.—BIRTHS and DEATHS registered during the week ended Saturday, 19th November, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Chlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 50 Vol. XCII. WEEK ENDED SATURDAY, 10th December, 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the week was 247—131 boys and 116 girls, while the number of births to mothers resident in the County Borough was 172.

The number of deaths registered was 120—56 males and 64 females. The number of deaths of persons resident in the County Borough was 106.

Seventeen deaths were due to malignant neoplasms.

There were 9 deaths from bronchitis, and 10 from pneumonia.

There were 2 accidental deaths registered, one of which was due to burns.

Among the deaths of infants under one year, one was due to gastro-enteritis, one to birth injury, 3 to bronchopneumonia, and one to bronchitis.

Five of the deaths recorded during the week for the County Borough were those of children under one year of age, one of whom was under one month old; Deaths of persons aged 65 and upwards numbered 63.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 10th December, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.

WEEKLY RETURNS OF BIRTHS AND DEATHS FOR THE PRINCIPAL TOWNS

Compiled by the Central Statistics Office from data supplied by the Ard Ohlaraitheoir

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

Nos. 52 and 53. Vol. XCII WEEKS ENDED SATURDAY, 24th and 31st Dec., 1955 PRICE 2d. NET

PRINCIPAL TOWNS

Particulars of the births and deaths recorded for the *Principal Towns* are given in Table I. Deaths have been assigned so far as possible, to the area of residence and those of non-residents have been excluded. In Table II, information is shown regarding the deaths recorded for each registrar's district in Dublin County Borough and Cork County Borough. Table III shows the number of cases of infectious diseases notified in Dublin County Borough, Dun Laoghaire Borough and the County Boroughs of Cork, Limerick and Waterford, with comparative figures for each of the three preceeding weeks.

DUBLIN COUNTY BOROUGH

The number of births registered during the fortnight was 429—236 boys and 193 girls, while the number of births to mothers resident in the County Borough was 292.

The number of deaths registered was 211—120 males and 91 females. The number of deaths of persons resident in the County Borough was 184.

There was one death from diphtheria, and 2 from whooping cough.

Thirty-seven deaths were due to malignant neoplasms.

There were 6 deaths from bronchitis, and 13 from pneumonia.

There were 8 accidental deaths, 3 of which were due to transport accidents, one to carbon-monoxide poisoning, one to drowning and one to alcoholic poisoning.

Among the deaths of infants under one year, one was due to whooping cough, one to meningococcal septicaemia, 6 to pneumonia, one to atelectasis, one to congenital malformation and one to prematurity.

Eleven of the deaths recorded during the fortnight for the County Borough were those of children under one year of age, 4 of whom were under one month old. Deaths of persons aged 65 and upwards numbered 102.

TABLE I.—BIRTHS and DEATHS registered during the weeks ended Saturday, 24th & 31st December, 1955, for the Principal Towns with similar particulars for BELFAST and DERRY.
